Nairobi County, Kenya

## Summary

At Kenya Institute of Highways and Building Technology, my role as a Plant Operator Licensing Clerk enabled us to streamline the NTSA account management and coordinate government examinations effectively. This position honed my organizational abilities and underscored the importance of precise logistics in student success, which align perfectly with my recent academic achievements in software engineering.

Graduating from the Cisco Networking Academy and W3webschool, I have acquired a strong foundation in computer software engineering and full-stack web development. Coupled with certifications in JavaScript and Node.js, I bring a robust skill set in e-commerce solutions and an exceptional ability to communicate, key in fostering seamless user experiences and patient customer interactions.
